To: Md Abdullah Al Hafiz Khan <mdkhan1@umbc.edu>

Dear Md Abdullah Al Hafiz Khan,

Congratulations! We are happy to inform you that your paper:

AugToAct: Scaling Complex Human Activity Recognition with Few Labels

has been accepted to MobiQuitous 2019.

You may find reviewer comments in a follow-up email. Please note that this track only has a single round of reviews, and since your submission has been accepted on its current scientific merit, we only allow that you make grammatical and stylistic changes to your paper, as well as other necessary additions, such as information about co-authors, project funding, etc.

In order to perform Camera-ready submission, it is required that you register to the conference via the following link: https://services.eai.eu/regauthor/285290

For your efforts as a Author, you receive 16 credits based on the evaluation of your review by the assigned Program Committee Member. These points count toward your EAI Index.

EAI Index represents a revolution in recognizing excellence in research fairly and transparently, and it is a key element in annual nominations for the member ranks of EAI Fellows, Distinguished Members, and Senior Members. You can view your current EAI Index in your user profile (https://account.eai.eu/profiles/143240e6-a6d7-4cb5-b9f7-9fb279b23b53) at any time and gain more points by volunteering in other EAI conferences and journals or by submitting papers to these research venues:

• Bid to Review recently submitted papers in Community Review: https://eai.eu/#!/community/collaborate-and-review

• See open positions in conferences and journals: https://eai.eu/#!/community/organize-and-influence

• Explore conferences open for submission: https://eai.eu/#!/publish/conferences

• Explore journals open for submission: https://escripts.eai.eu/publication

To learn more about EAI's transparent research recognition program, please visit the EAI website: https://eai.eu

After you have completed the registration process and we have received your registration fee, you will be eligible to submit the Camera-ready version of your paper via Confy. Please note that if you choose to pay via bank transfer, it may take up to 5 business days before your transaction arrives.

It is required that the author performing the registration uses the same email address that has been used at Initial Submission. If you are unsure about which email address to use, use the one to which you have received this notification. Only the registrant will have Camera-ready uploading rights.

Also make sure that you add all authors to the Camera-ready manuscript if you have previously anonymized your submission to accommodate Double-blind Review guidelines.

You will receive reviewer comments in a follow-up email. Please note that revisions are not allowed and you will be required to submit the Camera-ready paper with the same content as during Initial Submission.

By taking part in MobiQuitous 2019, you help advance EAI's mission toward open research and innovation via community-driven mentorship, review, recognition, and building a bridge between European and International research.

Thank you for being a part of the EAI Community.

--

This email was sent automatically by Confy on behalf of the Organizing Committee and EAI's Conference Management team.
